Subject: Rosemont Briefing Paper

Kathleen is requesting that the Rosemont briefing paper be included in the RA Transition Booklet. Apparently, it has been removed from the sharepoint site where it used to be located.

Liz/Jeannie, can you please send a current briefing paper, and Liz can you confirm with Sam the intent to add it to the mix?

I understand not much has changed and we are awaiting a Corps decision. I think that there was a new(ish) lawsuit from Tohono Odham that could be added?

Thanks,
Connell

Pollinators, including bees, butterflies, birds, and bats, are an important part of our ecosystem and food supply chain. Plants, like fruits and vegetables, need bees and other pollinators to help them grow.

Find out how EPA is protecting pollinators: <https://www.epa.gov/pollinator-protection>
